

ON-SITE VALIDATION SERVICE

Dual-Dye Ratiometric Photometry (DDRP)

Working laboratories require high-precision pipette and liquid handling instrumentation validation in order to meet regulatory requirements. However, only Uniflex can offer traceable, on-site validation using the latest validation technology – Dual-Dye Ratiometric Photometry. DDRP offers greater speed, ease-of-use and enhanced accuracy in small-volume measurement than comparable calibration technologies

(Registered Trademark • Registered Patent: ARTEL)

(Patent Pending: Uniflex Co. Ltd.)
